For the benefit of offices who have not received previous copies of reports in this case, MARK PAGE has been reported to have been an active member of the Engineering Group of the YOUNG COMMUNIST LEAGUE at the City College of New York, New York City, for at least the first six months of 1937 and was a close associate of JULIUS ROSENBERG, Executive Secretary of the YCL at City College, who since that time has been convicted as an espionage agent.

It has been reported by RUTH GREENGLASS, wife of DAVID GREENGLASS, also a convicted espionage agent, that her husband had told her that ROSENBERG had told him that animosity existed between ROSENBERG and MARK PAGE. She also stated that ETHEL ROSENBERG, wife of JULIUS ROSENBERG and herself a convicted espionage agent, had taken her son, MICHAEL, to MARK PAGE's home in East Orange, New Jersey at various times.

SECURITY INFORMATION - CONFIDENTIAL

DETAILS:

AT RACINE, WISCONSIN

STANLEY BELDEN, personnel director of the S. C. Johnson and Son, Company, a reliable individual checked the mailing lists of the company and advised that the Subject had made an inquiry of the Johnson Company concerning a wax lubricant for piercing and blanking. The date of the inquiry is not reflected in the mailing lists of the Johnson Company. On July 5, 1951 the Subject was sent some samples for a try-out and the samples were sent to the MARK PAGE Firm, 73 South Walnut Street, East Orange, New Jersey. This letter advised that the Johnson Company in the area was the ACME-DANNEMAN Company, Incorporated, 203 Lafayette Street, Newark 12, New Jersey. No reply was received from the Subject and on September 17, 1951 he was sent a follow-up letter but no word had been had from him subsequent to that time.

The Johnson Company publicity data was sent to the Subject under the signature of J. C. CORSE, salesmanager, Industrial Production Department, S. C. Johnson Company.

According to Informant T-2, the letter was prepared on stationery of the Scientists and Engineers Association, which identified the business as "A specialized placement service, nation-wide, through department managers, each covering a specialized occupational field. Our placement services are without charge to employers except when an employer orders a special service, or volunteers to pay a placement fee."

THOMAS F. BRIDGE, Manager of the Stamford, Connecticut Credit Bureau, made available records concerning ASHLEIGH DEAN HALLIWELL, of Rock Rimmon Road, Stamford, Connecticut, which revealed the following information. It is to be noted that A.D. HALLIWELL was the correspondent of a letter to the Postmaster at Stamford under date of August 27, 1951, representing the Scientists and Engineers Association.

The credit records revealed that in the report dated June 14, 1951, prepared by the Stamford Bureau for the Commercial Rating Company of St. Louis, Missouri, it was indicated that Mr. HALLIWELL has been known to the Stamford Bureau since 1935, having resided on Rock Rimmon Road in Stamford since 1945. According to the credit report Mr. HALLIWELL is married and has been in the real estate business in Stamford for a number of years. At one time he did business under the trade name of HALLIWELL AND COMPANY. The credit records indicated that in 1930, Mr. HALLIWELL incorporated under the name of A.D. HALLIWELL, INC., and in December of 1938 the name was changed to A. DEAN HALLIWELL, INC. In February of 1941 the corporation was changed back to its original name of A.D. HALLIWELL, INC. According to the information made available by the credit bureau, Mr. HALLIWELL has been identified with HY-CLIFF ASSOCIATION, a local organization maintained to improve and enforce restrictions in the Hy-Cliff section of Stamford, Connecticut. It was reported that Mr. HALLIWELL has served as president and treasurer of the Stamford Development Company, which is a local real estate and contracting firm. Mr. BRIDGE advised that there was no record on file at his bureau for the Scientists and Engineers Association.

Miss JULIA MOORE, employee at the Stamford Chamber of Commerce, 417 Main Street, Stamford, Connecticut, advised that ASHLEIGH DEAN HALLIWELL, former owner of Scientists and Engineers Assoc., has been known to the Chamber for a number of years. Miss MOORE pointed out that Mr. HALLIWELL sold his business, which was formerly known as the Scientists and Engineers Association about August of 1951, to Mrs. JAMES W. CAMPBELL of Cedar Gate Road in Darien, Connecticut. According to Miss MOORE, subsequent to the sale, the Chamber of Commerce directed correspondence to

NH 65-1365

Mrs. CAMPBELL inviting the latter to join their Chamber of Commerce, but to date the Chamber has received no answer from Mrs. CAMPBELL. Miss MOORE advised that Mr. HALLIWELL is well known in the area of Stamford and has an excellent reputation in the community. He has been identified with the real estate business for a number of years. Miss MOORE furnished no information concerning Scientists and Engineers Association, other than to report that such has been known to be some type of specialized placement service bureau.

The 1951 City Directory for Darien, Connecticut, reflects that Mrs. JAMES W. CAMPBELL, also known as CELESTIA D. CAMPBELL, currently resides on Rebel Lane in Darien, Conn. It is to be noted that Rebel Lane is off Cedar Vale Road in Darien. The City Directory further identified Mrs. CAMPBELL'S husband, JAMES W., as an industrial psychologist employed in New York.

The records of the Stamford, Connecticut Credit Bureau contain no information identifiable with either Mr. or Mrs. JAMES W. CAMPBELL of Darien, Connecticut.

 b7c

The indices of the New Haven office of the FBI contain no information identifiable with ASHLEY DEAN HALLIWELL.

DETAILS

Mr. T. F. CUMMINGS, Works Accountant, Manning, Maxwell, and Moore, Communipaw Avenue, Jersey City, N.J., advised that MARK PAGE, Social Security # 093-16-6752, had been employed by them from November 15, 1948 to February 4, 1949 as a Design Engineer in their Air-Ex Division. He was laid off due to a curtailment of their working force and the consolidation of this group which worked on aircraft valves with another group in Bridgeport, Connecticut.

In connection with his work there, Mr. CUMMINGS advised that he did not sign a non-Communist Party affidavit or execute a Personnel Security Questionnaire. He stated that there was no indication of disloyalty on the part of PAGE and that he never exhibited any indication that he was a member of the Communist Party or engaged in any Communist Party activities.

Miss DOROTHY MULCHAY, Secretary, George Scher Engineering Company, 115 First Street, Newark, N.J., advised that MARK PAGE, aka MARCUS POGARESKY, was employed by them from 12-24-41

until 9-13-46 as a tool designer and later as a group leader. During this period of employment, he was drafted on May 10, 1944 into the United States Navy and was reemployed 11-18-45 and quit their employ on 9-13-46.

Their records indicated that he had previously been employed by the Watercolt Arsenal in New York. He listed his wife, STELLA, in his records at George Scher Engineering Company. *AT A*

Mr. ALF WAKSLIF, Chief Draftsman, advised that MARK PAGE worked under him while employed there and that he had never had any reason to question his loyalty to the United States, however, he volunteered that he considered MARK PAGE to have a "big shot" complex and that he felt he was better than most people.

Mr. ARTHUR BARTSCH, President, Enterprise and Tool Manufacturing Company, 117 Sylvan Avenue, Newark, N.J., advised that MARK PAGE was never employed by him. He stated he first met MARK when PAGE was employed at Westinghouse at Bloomfield, N.J.

He stated that during PAGE'S employment at Westinghouse, he came to BARTSCH in an attempt to work out a toy and used a desk or small work bench in BARTSCH'S shop for about two months. It was agreed by BARTSCH and PAGE that if the toy was developed, BARTSCH would make the tools and dies for its manufacture. He stated that there was never any agreement signed and the toy was never developed.

He advised that PAGE later worked with the Ideal Toy Company, Long Island City, New York. Mr. BARTSCH advised that he never had any indication of any Communist Party activity on the part of PAGE and he considered him to be a loyal American.

Confidential Informant T-1, a representative of another Government agency, advised that the following mail was received by MARK PAGE at 73 S. Walnut Street, East Orange, N.J., where he was residing of November 14.

status is divorced. He was reported to have been awarded a B.A. Degree by New York University in 1940. He was employed as an analytical engineer by the Chance Vought Division of the United Aircraft Corp. from 1940-1948. He was also employed as a project engineer by the Manning, Maxwell and Moore Corp. in Bridgeport, Conn. for a period of two years leaving for a better opportunity. The above records also reflected that PECH terminated employment with the Electrol Corporation at Kingston, New York in July, 1951. The reason for leaving being cited as divorce. The records reflected that PECH is the father of two children. His father, R. PECH, resides at Route R.F.D. #1, Allendale, New Jersey. The credit report dated 10/7/51 contained in the files of the Niles, Bement and Pond Corp. reflected that PECH was divorced from his wife EVE in 1951 in Nevada. The couple were the parents of two children. The report reflected that the investigation contained in the matter reflected no evidence of disloyalty to the United States.

Correspondence received from the Electrol Corp. advised that that firm regreted to lose the services of PECH, having considered him conscientious and able. The Manning, Maxwell and Moore Corp. also rated PECH "excellent in everything", and indicated that he terminated the employment of his own accord.

T-1 advised that the Chandler Evans Division is currently engaged in the production of defense material of a sensitive nature such as aircraft carburetors and fuel control units.

PH 65-4638

A report dated October 11, 1951, reflected that the Hunter Spring Company, Inc., 8th and Maple Streets, Lansdale, Pa., has a plant #2 at 400 Pierce Street, and a warehouse at 160 East Main Street in Lansdale. Officers of the corporation were shown as KNOWLTON D. MONTGOMERY, President and Treasurer; WILLIAM J. COOK, Vice-President; and PHILIP C. CLARKE, Secretary. The firm was incorporated in Pennsylvania on December 29, 1916.

MONTGOMERY was born in Pittsburgh in 1901 and is married. He was graduated from the Washington and Jefferson College in 1924. In the same year he was successively elected Treasurer and President of the corporation. He is the son of the former president of the company. MONTGOMERY owns 425 shares of the 500 shares of capital stock authorized.

*COOK was born in Brooklyn, N. Y., in 1894 and is married. He has been with the company since 1922 and is Work Manager.

*CLARKE was born in Camden, N. J., in 1904 and is married. CLARKE studied mechanical and electrical engineering at Drexel Institute of Technology. He joined the organization in 1933 and assists COOK in managing the company.

The company has 325 employees and has a tangible network of \$518,856, as of July 31, 1951. For the first seven months of 1951, the company sales were \$1,750,000, and over 10 per cent of its volume is represented by Government work. A mortgage for \$112,000 is held by the Occidental Life Insurance Company of California. The business of the Hunter Spring Company is steadily increasing and more profitable.

The files of the Philadelphia Office contain no information identifiable with the Hunter Spring Company or its officers.

Rerep of SA JACK WEST dated 12/26/51, at Philadelphia.

In view of the possibility that PHILIP C. CLARKE, Secretary of the Hunter Spring Company, Lansdale, Pa., had attended Drexel Institute of Technology in Philadelphia at the time HARRY GOLD was a student there, investigation at Drexel Institute was conducted. It was believed that if CLARKE had attended Drexel contemporarily with HARRY GOLD, an interview with CLARKE concerning GOLD could be conducted, at which time CLARKE might furnish information concerning subjects of other security investigations, including MARK PAGE.

It was determined from Miss THERESE RICO, Registrar's Office, Evening School, Drexel Institute of Technology, Philadelphia, that PHILIP CORLIES CLARKE attended Drexel's Evening School from September to December 1923. It will be recalled that HARRY GOLD attended Drexel in the 1930's.

This office does not at this time intend to conduct interviews at the Hunter Spring Company, Lansdale, Pa., to determine the nature of that company's relations with the subject. It is believed that an exploratory-type investigation such as this would have to be at the Hunter Spring Company might jeopardize future investigation of this case. The possibility also exists that the company's correspondence with the subject, disclosed by the Newark mail cover, was an isolated communication sent to the subject by the Hunter Company in the course of its normal business activities.

In the event further investigation of this case discloses an established pattern of correspondence between the subject and the Hunter Company, the Newark Office may desire to bring this to the attention of the Philadelphia Office and the advisability of conducting an investigation at the Hunter Spring Company will be reconsidered.

He stated that PAGE had been employed only in the Watch Department in the plant, and had not worked on any war project during his employment with them. He also stated that PAGE had not signed a Personnel Security Questionnaire or a non-Communist affidavit, in view of the fact that none were required at that period.

Mr. HANSEN further advised that PAGE did not have access to any restricted areas during his employment with them. He recalled one incident in which PAGE attempted to have one JOE GASSELIN, a foreman in the plant, who was new in

the State of New York, at that time, join him in a May Day Parade, but GASSELIN refused when he realized and learned what the May Day Parade consisted of. Mr. HANSEN related the above incident to substantiate the fact that PAGE was considered somewhat of a radical in the plant.

Mr. JOE GASSELIN was contacted at the Bulova Watch Company the same day, but he could furnish no further information other than that given by Mr. ARTHUR HANSEN.

Mr. WILLIAM HALPERIN, Plant Manager, at the Ideal Novelty and Toy Company, 184-10 Jamaica Avenue, Jamaica, Long Island, New York, advised that they had not required any Personnel Security Questionnaire or non-Communist affidavit to be signed by PAGE while he was employed by them. He advised that PAGE was employed from February 28, 1949, to April 28, 1950. He stated that PAGE had not been employed on any war work during this time.

In regards to the Williams Aero-Research Company, it should be noted that this company is no longer in existence, and therefore, it could not be ascertained whether the subject signed a Personnel Security Questionnaire or a non-Communist affidavit, while employed with this company. However, it should be noted that this company was operated by a PAUL WILLIAMS and Confidential Informant T-1, of known reliability, advised on November 25, 1941, that he was introduced to PAUL WILLIAMS and WILLIAMS stated he was a pilot and flew for the Spanish Loyalist Army.

Mrs. E. S. MITCHELL, Personnel Department, Bell Laboratories, 463 West Street, New York City, advised that their records reflected that M. M. McKEE was presently employed with them as Superintendent of Building Operation and Maintenance. He had previously been employed with the New York Telephone Company from November 3, 1924, to June 11, 1944. He was born in New York City, March 29, 1901.

Mr. McKEE was then contacted and he advised that in regard to MARK PAGE that PAGE had contacted him regarding some

NY 100-91484

special type of florescent lamps for use in the building occupied by the Bell Laboratories. He advised, however, that no purchase was made from PAGE.

Mr. LORD, Personnel Director of the Eutectic Welding Company, 172nd Street and Northern Boulevard, Flushing, New York, searched their records and could find no reference to MARK PAGE, either among the applications for employment or personnel correspondence. He advised that their company had no classified contract with the Government.

It should be noted that the C. H. Ribble Company is located at 261 Broadway, New York City, and it is believed that this is the company that PAGE had contact with, rather than the Bibble Company.

Mr. M. G. SAAKE, advised that this company is merely a sales agency for various manufacturers of motors, including the Howell Motor Company.

The Almak Plastics Company, 230 - 5th Avenue, New York, from whom the subject received correspondence is a sales office for the Almak Plastics Company and the Mack J. Lewis Plastics Company. Mr. LEWIS advised that there was no record concerning MARK PAGE in their office and he believed that PAGE must have been interested in purchasing some of their plastics, as a result of being circularized by mail.

DAVID MAYER, 69 Besey Street, New York, is identified as a Paint and Varnish Retail Store. Mr. DAVID MAYER advised that he knew of no one by the name of MARK PAGE.

It should be noted that the Children's Record Guild, 27 Thompson Street, New York City, is a manufacturer of children's records and no further investigation was conducted in regard to this company.

It should be noted that MORRIS WEINBERG from whom the subject received correspondence is the owner and publisher of the

NY 100-91484

"Jewish Day".

Doctor S. MARGOSHES advised in regard to the "Jewish Day" that the present owner MORRIS WEINBERG introduced a vigorous pro-Soviet policy and that he, MARGOSHES was replaced by a new editor, although MARGOSHES remained with the paper writing an English language column and occasionally criticizing the Soviet Union from time to time.

In regards to the "Congress Weekly", from whom PAGE received communication, according to a report by the Foreign Nationalities Branch of the office of Strategic Services dated October 10, 1944, the "Congress Weekly" is edited by SAMUEL CAPLAN and deals in strictly Jewish matters in the United States and abroad.

It should be noted that A. J. C. undoubtedly stands for the American Jewish Congress.

Dear Mr. O'Connell:

In reply to your letter of June 26th. We are pleased to present the following information:

Our organization has been in existence since 1941.

SECURITY INFORMATION - ~~CONFIDENTIAL~~

CG 65-3604

Devoted primarily to the problems of the metal working industry, we service and sell equipment to a large number of accounts in Maine, Mass., Conn., N.Y., N.J., and Penn.

We furnish engineering industrial services, and act as distributors for a number of equipment manufacturers. Our organization includes 11 salesmen and is headed by a graduate mechanical engineer who has been active in the tool and equipment engineering field for 17 years.

You may refer for financial reference to the Essex County Branch of the Fidelity Trust Co in East Orange, N.J.

We are interested in having our sales and engineering staff distribute your Sheet Floater as an important addition to our line. Please inform us of our discount schedule, present delivery, and what type of sample units you feel are required.

Very truly yours,

Mark Page

By letter dated August 18, 1951, MARK PAGE stated he desired a higher commission for the sale of this machine. Verson Allsteel Press Company, responded by letter dated August 27, 1951, indicating they could offer no greater commissions than reflected in the schedule of commissions already furnished.

Mr. SAM REDROW, JR., Assistant Executive Secretary of the Cincinnati Milling Machine Company, Marburg Avenue, advised that in all probability, the correspondence of his company with the subject, listed as Cincinnati Milling and Grinding Machinery, Incorporated, was correspondence with the Sales Department of the Company. After a search of his files, he advised that he had three letters from the subject dating from August, to September of 1951. The first correspondence was a request for the company's Number Two cutter and tool grinders' catalog. The second request from the subject was for his recommendation for sharpening carbide milling cutters. The third request from the subject was for one of their general catalogs showing the specifications for all types of cutters and tool grinders manufactured by the Cincinnati Milling Machine Company. On all correspondence, subject had signed his name, "Page Design, MARK PAGE, Engineer, 73 South Walnut Street, East Orange, New Jersey".

According to Mr. REDROW, there would be no secret or confidential information in any of the above listed pamphlets or catalogs. He stated that these were the regular catalogs they sent out to their customers and prospective customers. Mr. REDROW advised that in the event of any future request by subject, he would advise the Cincinnati Field Division.

AT DAYTON, OHIO

Mr. CHARLES A. ERNST, Supervisor of Employment, Sheffield Corporation, 721 Springfield Street, Dayton, Ohio, advised on January 11, 1952, that the subject is not known to him and that his office had no information to indicate that that company had ever been in contact with the subject in person or by correspondence.

Mr. ERNST made inquiry of the following heads of the divisions of that corporation, and caused the secretaries of the heads of these divisions to make a search of the correspondence of their respective offices, however no reference was located in the name of the subject:

Mr. CLEMENT SAKARTIS, Product Engineering
Mr. JACK WELCH, Machine Tool
Mr. LOUIS MAHLMEISTER, Contract Sales
Mr. EDWIN BREWER, Contract Engineering
Mr. JACK CIRCLE, Sales Order

The general correspondence for the months of August, September and October, 1951 was checked with negative results.

Mr. ERNST contacted other personnel in the Personnel Department, in addition to those individuals mentioned above, but could locate no one who knew the subject or remembered of ever having been in contact with him in person or through correspondence.

Mr. ERNST stated that it was possible that the subject may have contacted that corporation requesting certain literature be sent him, in which event no record would have been made of such contact.

Re: SA JOHN R. LYONS, 2/27/52, Newark, which states that the subject received correspondence from The Parker Engineering Co., 500 Green Road, Cleveland, Ohio. G.I.R.

Please be advised that, according to Dun and Bradstreet, this firm is engaged in machining of aircraft parts on a subcontract basis and formerly manufactured miniature internal combustion engines. The firm was founded in 1942 as a partnership composed of MERCY E. BARKER and his sons, ROBERT H. and EARL BARKER.

There are no pertinent references to The Parker Engineering Company, or its partners in Cleveland indices.

EARL BARKER caused a search to be made of the firm's correspondence files without locating any reference to PAGE and advised he did not recall any dealings with anyone named PAGE or LOGARSHY. He advised, however, that a routine inquiry could have been answered without maintaining a record.

Gentlemen:-

Re: Your ad in "Times" 8-17-41.

I am interested in your offer. I am 23 years old and have been in the tool design game for the last five years, working in with a small outfit Corno Aeronautical development in 1936. Corno was originally located at 518 E. 16 St., New York City, but when the Chief Engineer, Paul Williams set up a new outfit in 1938 I went with him and worked for the Williams Aeronautical Research until 1940. I left Williams in 1940 when some reorganization was going on and took a better position. Mr. Williams can be located at 425 E. 6 St., N. Y. C.

In 1940 I was employed by the Eastern Wood Co. at Woodville, N. Y. drawing gages, punches & dies, etc. I left Paulson in 1941 (year) for a position as a Tool & Page Designer and was at that time interested in a similar position.

My experience has been quite varied and I progressively more responsible. In addition I have completed three years of college over a period of 6 years in evening engineering and also hold a certificate in Tool Design for a course taken at Kew-Forest Polytechnic Institute.

Yours truly,
Mark Page

DETAILS:

T-1, of known reliability, advised that subject while residing at 73 South Walnut Street, East Orange, New Jersey, had corresponded with Viking Industries, Rockford, Illinois, during the month of November, 1951. T-1 also advised that subject had moved from 73 South Walnut Street, East Orange, New Jersey, to 2 West Mill Drive, Great Neck, Long Island, New York.

AT ROCKFORD, ILLINOIS

Mr. LLOYD D. KLING, owner of Viking Industries, and Mr. J. P. DEVORAK, his Sales Manager, were interviewed at the company offices at 220 Montague Street, Rockford, Illinois. These company officials informed that they are currently engaged in the production of a new machine tool and in marketing this new product. Both men stated that they have circularized a variety of concerns throughout the east and the middle west with advertising matter relative to their new product.

Mr. KLING made a search of his correspondence files and was unable to locate any record indicating any correspondence with MARK PAGE or MARCUS PODARSKI at either East Orange, New Jersey, or Long Island, New York.

Both Mr. KLING and Mr. DEVORAK stated that they were positive this man is not personally known to them.

Mr. KLING pointed out that his current place of business, 220 Montague Street, is also the location for two other industrial concerns, both of which have access to the desk normally used by Mr. KLING and Mr. DEVORAK. These men suggested that it is entirely possible that persons unknown to them may have used the letterhead or return address envelope of Viking Industries in corresponding with the subject. Neither KLING nor DEVORAK could advance any opinion as to what individuals might have availed themselves of this unauthorized privilege.

Mr. HAROLD GRAHN, Manager of the Rockford Credit Bureau, and Mr. LEONARD FIBERG, Chief Deputy Sheriff of Winnebago County, both advised that KLING is a native born of Rockford, Illinois, of Orthodox Swedish Lutheran parentage, and bears an excellent reputation in the community. These men further advised that they would have no reason to question the patriotism or loyalty of LLOYD D. KLING and stated that he has had considerable success as the marketer or promoter, if not the inventor, of several machine devices.

Police Chief JAMES A. MURPHY and Deputy Chief JAMES G. MC GLYNN, Oneida, New York, both advised that the Westcott Chuck Company of Oneida, New York has been a reliable firm in town for well over 50 years and its owners and personnel are mostly local people whose loyalty and patriotism are above reproach. MURPHY stated that PARKER BARNASKEY presently is the owner and manager of the company and that his father before him ran the company for many years. MURPHY and MC GLYNN both vouched for the loyalty of BARNASKEY.

Postmaster, ROBERT HASTEL, Oneida, New York, advised that the Westcott Chuck Company has been in existence in that community for well over 50 years and is a reliable and substantial firm. He furnished a city directory of Oneida containing an advertisement of the Westcott Chuck Company which reflected that the firm has been in business in that area since 1872. HASTEL stated that the owner, PARKER BARNASKEY, is a reliable and trustworthy citizen.

Mr. PARKER BARNASKEY, Owner and Manager of the Westcott Chuck Company, 132 East Walnut Street, Oneida, New York, advised that his company has recently designed a new type chuck used in the glass industry, mostly for television, and that an informative write-up of this chuck appeared in the "Tool Engineer", a periodical published at 10700 Puritan Avenue, Detroit, Michigan in October of 1951. BARNASKEY advised that he received correspondence from this magazine to the effect that MARK PAGE, Mark Page Company, 73 South Walnut Street, East Orange, New Jersey, had written to the magazine requesting additional information concerning this chuck. When this information was forwarded to the company, BARNASKEY wrote to MARK PAGE at the above address on November 12, 1951 and again on December 10, 1951 giving him additional detailed information concerning the chuck with the purpose of advertising its advantages. BARNASKEY stated that he received no reply from the MARK PAGE Company and he has no additional information to furnish concerning the subject.

As a result of investigation in the case of MARK PAGE, it is noted that mail cover and telephone toll checks indicated he has contacted a number of individuals and firms in the Newark area. It is noted that after a number of these concerns had been checked, apparently MARK PAGE was contacting them for the purpose of selling them merchandise in the ordinary course of his business or inquiring of them regarding their product. It is felt that any further investigation concerning these firms and contacts of his would not be advisable and accordingly no further investigation will be conducted along this line UACB and the leads outstanding for Newark will not be covered.

PAGE came to him with a financial record made up by his wife which showed that he was not receiving as much money as he did when he formerly worked at the plant. At this time, of course, he was asking for a raise in salary.

Mr. HALPERIN further advised that PAGE was rehired at the request of JOSEPH YAKALOFF inasmuch as PAGE had formerly worked under YAKALOFF and knew the work and at the time YAKALOFF was ill and it was believed necessary to hire, if possible, someone who was familiar with YAKALOFF'S work. Mr. HALPERIN also advised that they are not very pleased with the employment of PAGE and they are not too desirous of keeping him on the payroll.

Mrs. ROSEMARY DAVIES, secretary at the Terrace Apartments, 2 West Mill Drive, Great Neck, New York, advised that she could furnish no information concerning the subject or his wife as she had received no complaints from them and had had no contact with them.

Confidential Informant T-1, of known reliability, advised that there had been no unusual deposits to or withdrawals from PAGE'S account at the Bank of Manhattan, Little Neck, Long Island; the balance of the account has never been over \$400 during the period from May 15 to August 7, 1952. Information received from this informant should not be made public except in a usual proceeding following the issuance of a subpoena duces tecum.

Confidential Informant T-2, of known reliability, advised that the subject had received correspondence from the following sources:

Re report of SA FREDERICK C. BAUCKHAM dated NOV 21 1952 at New York, five copies of which are enclosed.

It is believed that this case should be closed inasmuch as the investigation up to the present time has failed to disclose or develop any indication that the subject is engaged in any espionage activities. It should be noted that the subject has refused to testify before the Grand Jury and has refused to be interviewed by agents of the FBI.

It should also be noted that the subject was in the past acquainted with JULIUS ROSENBERG and his wife and as a matter of fact shared an apartment with them at one time.

At this time it is believed that any further investigation of the subject would not be productive and would not develop anything of value to this investigation. However, it should also be noted that in the event any information is obtained from any of the subjects and individuals connected with the ROSENBERG group of espionage agents regarding the subject of this case, then this case will be immediately reopened and the appropriate investigation conducted.

Re: Report of SA Frederick C. Baukhann, dated 11-21-52,
at New York.

It is believed that before this case is placed
in a closed status another attempt should be made to inter-
view Page.

It is realized that Page refused to be inter-
viewed by agents and refused to answer pertinent questions
before the Grand Jury. However, you are aware that this
took place approximately two years ago, which was prior
to the Rosenberg convictions. It is possible that, in
view of what has transpired since the Rosenberg case, we
may have a psychological advantage in approaching Page,
and he may be in a different frame of mind. Further, Page
may feel in being approached by Bureau agents at this time
that we have definite information of his involvement in
espionage activities.

You are instructed to reopen this case and to
make another attempt to interview Page as soon as possible.
This matter should be handled by two experienced agents
familiar with the Rosenberg investigation. If Page is
cooperative, he should be questioned thoroughly concerning
his associations with Rosenberg, bearing in mind the state-
ment of Ruth Greenglass that Rosenberg told her he attempted
to recruit Page into espionage work. It may also be pos-
sible to obtain information from Page concerning his Com-
munist Party activities.

You are also instructed to submit a complete
summary report in this case suitable for dissemination
which will reflect all pertinent information developed
in this case and contained in your files.

The Bureau should be immediately advised of any
important developments.

APL:rmc

NOTE: Investigation based on info from Ruth
Greenglass mentioned above. Page was active Communist
at least from 1935 to 1948. Investigation developed no

evidence of espionage. Bureau authority was granted to interview Page. On 12-15-50, Page refused to be interviewed by agents. In January and February, 1951, Page went before Federal Grand Jury and refused to answer pertinent questions. Believed advisable to attempt another interview with Page at this time before closing case. Two experienced agents believed necessary to handle interview because of prior refusal of subject to be interviewed and his known Communist background.

From a review of the information in this case it is believed that the attempt to again interview the subject should be made at his place of employment, i.e. The Ideal Toy Company, inasmuch as the officials of this concern are extremely cooperative and there would be no objection on their part to interviewing PAGE at their offices.

In addition to the foregoing it is believed that PAGE should be interviewed at some place besides his home, away from any possible influence of his wife, and also that any request of him to come to the NYC might result in the same refusal as was previously encountered.

Therefore, UACF, the attempt to interview PAGE will be made at the Ideal Toy Company.

Subject was contacted at the Ideal Toy Company, 184-10 Jamaica Avenue, Jamaica, Long Island, New York, by SA RICHARD T. HRADSKY and SA FREDERICK C. BAUKHAM on February 18, 1953, to be interviewed and when he was informed the FBI was interested in his knowledge of JULIUS ROSENBERG, convicted Soviet Espionage Agent, he stated he would not talk about that matter as he did not wish to be involved in that "mess". He said as far as he was concerned the case against ROSENBERG was well handled and he received a fair trial and sentence. He said he thought the FBI did a very good job, but he would not discuss any connection he had with ROSENBERG.

He also refused to discuss or answer any questions concerning the Communist Party.

He said he was a loyal American and would do anything to help the United States; that he was an honest law abiding citizen and had not broken any laws to his knowledge.

Subject was contacted at the Ideal Toy Company, 104-10 Jamaica Avenue, Jamaica, Long Island, New York, by SA RICHARD T. BRADSKY and SA FREDERICK C. BAUMANN on February 18, 1953, to be interviewed and when he was informed the FBI was interested in his knowledge of JULIUS ROSENBERG, convicted Soviet Espionage Agent, he stated he would not talk about that matter as he did not wish to be involved in that "mess". He said as far as he was concerned the case against ROSENBERG was well handled and he received a fair trial and sentence. He said he thought the FBI did a very good job, but he would not discuss any connection he had with ROSENBERG.

He also refused to discuss or answer any questions concerning the Communist Party.

He said he was a loyal American and would do anything to help the United States; that he was an honest law abiding citizen and had not broken any laws to his knowledge.

At the end of the interview he said he would contact his

Attached are five copies of the report of SA FREDERICK C. BAUCKHAM,
dated 2-27-53, at New York, New York.

For the information of the Bureau, PAGE made the following comment:

He said he felt a great resentment against another government agency, which he did not desire to mention, because of the nasty treatment he received in his opinion from them and also their attitude toward his wife who was pregnant at the time. In fact he said he would be more willing to talk to the FBI as he had received courteous treatment but he knew that whatever he might say would eventually be turned over to prosecuting attorneys and he did not desire to have anything to do with them.

Espionage investigation of Page was instituted on the basis of information furnished by Ruth Greenglass 7-17-50, that Julius Rosenberg had told her he attempted to recruit Page to furnish information to the Russians and Rosenberg was apparently upset by Page's refusal to cooperate.

Previous security investigation of Page was instituted 7-24-44, because of information reflecting he and his wife, Stella, were CP members in Orange, New Jersey, in 1943. Investigation has established that Page had been a CP member from at least 1938 to 1948. Investigation, however, has failed to develop evidence of Page's involvement in espionage.

On 12-15-50, agents attempted to interview Page and he refused. Page also appeared before a Federal grand jury, SDNY, on 1-31-51 and 2-7-51, and refused to answer pertinent questions concerning his CP activities and associations with Rosenberg on the ground his answers might tend to incriminate him. On 2-18-53, and 3-12-53, Page was again contacted by agents and refused to be interviewed. Subject on Security Index. Additional investigation not believed warranted in view of negative results thereof. Appropriate dissemination has been made to the Department and ONI. Check of Bureau references reflects all pertinent information on subject in main case file.

RECOMMENDATION:

100-332133-116

It is recommended that the attached report of SA Frederick C. Bauckham, dated 5-13-53, at New York, New York, placing the case in a closed status, be accepted, subject to reopening upon receipt of information warranting additional investigation.
